

MAX CODEX

Full-Stack Web Developer

max.codex2025@gmail.com • linkedin.com • Jacksonville, Florida

Summary

Experienced full stack developer delivering fast, clean, and scalable web solutions tailored to business needs. Skilled in frontend and backend technologies, I create seamless user experiences and efficient code. I collaborate closely with clients to turn their ideas into practical, high-impact digital products.

Experience

Full Stack Web Developer

05/2022 - Present

- Designed and developed responsive web applications using React, Vue.js, Angular, and Next.js.
- Built backend services and APIs with Node.js, PHP, and Django.
- Managed databases using MongoDB and MySQL, optimizing queries and schema design.
- Implemented version control and collaboration workflows using Git.
- Collaborated with clients and teams to translate requirements into technical solutions.

Junior Web Developer

02/2020 - 04/2022

- Supported development of client websites and internal tools using HTML, CSS, and JavaScript.
- Contributed to codebase refactoring that improved site load speed by 20%.
- Assisted in migrating legacy frontend code to modern frameworks, resulting in better maintainability.
- Collaborated closely with senior developers and QA teams to ensure product quality and performance.

Education

Northbridge University

Gainesville, FL

Bachelor of Science in Computer Science

09/2013 - 06/2017

Key Achievements

Platform Upgrade

Led a major platform migration to React, boosting performance by 30%.

API Innovation

Created custom API services that cut data retrieval times by 35%.

Client Satisfaction

Consistently delivered projects ahead of schedule with high quality.
